

INCREASE PROCESS EFFICIENCY

AVOID UNSCHEDULED DOWNTIME

PREVENT CAPEX INVESTMENTS

Plate Heat Exchangers

OUR SERVICE FOR **PLATE HEAT EXCHANGERS**

Kelvion works reliable, sustainable and efficient. How? By focusing on reliable quality throughout the total life cycle of our products – from design, operation to service.

We provide reduction of waste, lower energy and water consumption as well as a lower CO2 footprint.

We develop most efficient heat transfer technology and find a most suitable solution for space and weight constraints.

HYDROGEN LEAKAGE TEST

With our innovative leakage test we can track down any material fatigue by feeding hydrogen / nitrogen mixture into the closed plate heat exchanger on the water side.

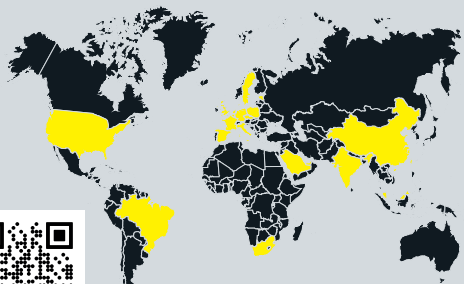

- ▶ Robust and simple construction
- ▶ Fast response behavior
- ▶ Early detection of material fatigue
- ▶ Mobile and can be applied at short notice
- ▶ 10% hydrogen results in 100% safety
- ▶ Proven product quality management

MORE THAN 30 SERVICE LOCATIONS WORLDWIDE

Kelvion Service starts from our first contact with you and continues after your order has been delivered, with us as your reliable service partner. Thanks to our worldwide service centers, we are always close to you.

10-STEP APPROACH | RECONDITIONING PROCESS

ALL BRAND SERVICE

Besides being experts in our own products and our former brands, we also have the expertise to service other brands.

SERVICE PORTFOLIO | PLATE HEAT EXCHANGERS

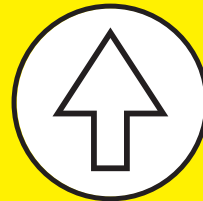

EARLY LIFE

- ▶ Precise set up of equipment to make future operation and Service easier
- ▶ Supervision of installation by Kelvion experts

REPAIRS, OVERHAULS & MAINTENANCE

- ▶ Cleaning service: Improvement of the thermodynamic performance and optimization of the efficiency
- ▶ Reconditioning service: Recovery of the thermo-dynamic performance to design values whilst checking overall integrity
- ▶ Repair service: Repair of the equipment and replacement of unsafe, worn, or damaged parts

UPGRADES & REPLACEMENTS

- ▶ Increase of capacity, cost reduction, extension of service intervals or achievement of more efficient heat transfer by redesigning your current solution
- ▶ Improvement of the overall performance and lifetime extension of your equipment by updating to the latest technology

SPARE PARTS & SPARE PART SOLUTIONS

- ▶ Supply of highest quality spare parts to match the excellence of the originals
- ▶ Exclusive stock: Reservation of critical spare parts to guarantee flexibility and quickest delivery

MONITORING, CONSULTING & TRAINING

- ▶ Troubleshooting: Detection of the root cause of a major issue by applying our extensive product and process knowledge
- ▶ Performance audit: Performance tests on the actual operating performance
- ▶ Condition audit: Integrity tests at the equipment to detect internal leakages followed up by test reports and expert recommendations
- ▶ Remote support: Hotline support with direct access to experts
- ▶ Training: Staff training to increase knowledge and competencies of your maintenance staff
